For The Latest In Desktop Publishing, Merrick Makes It Happen.

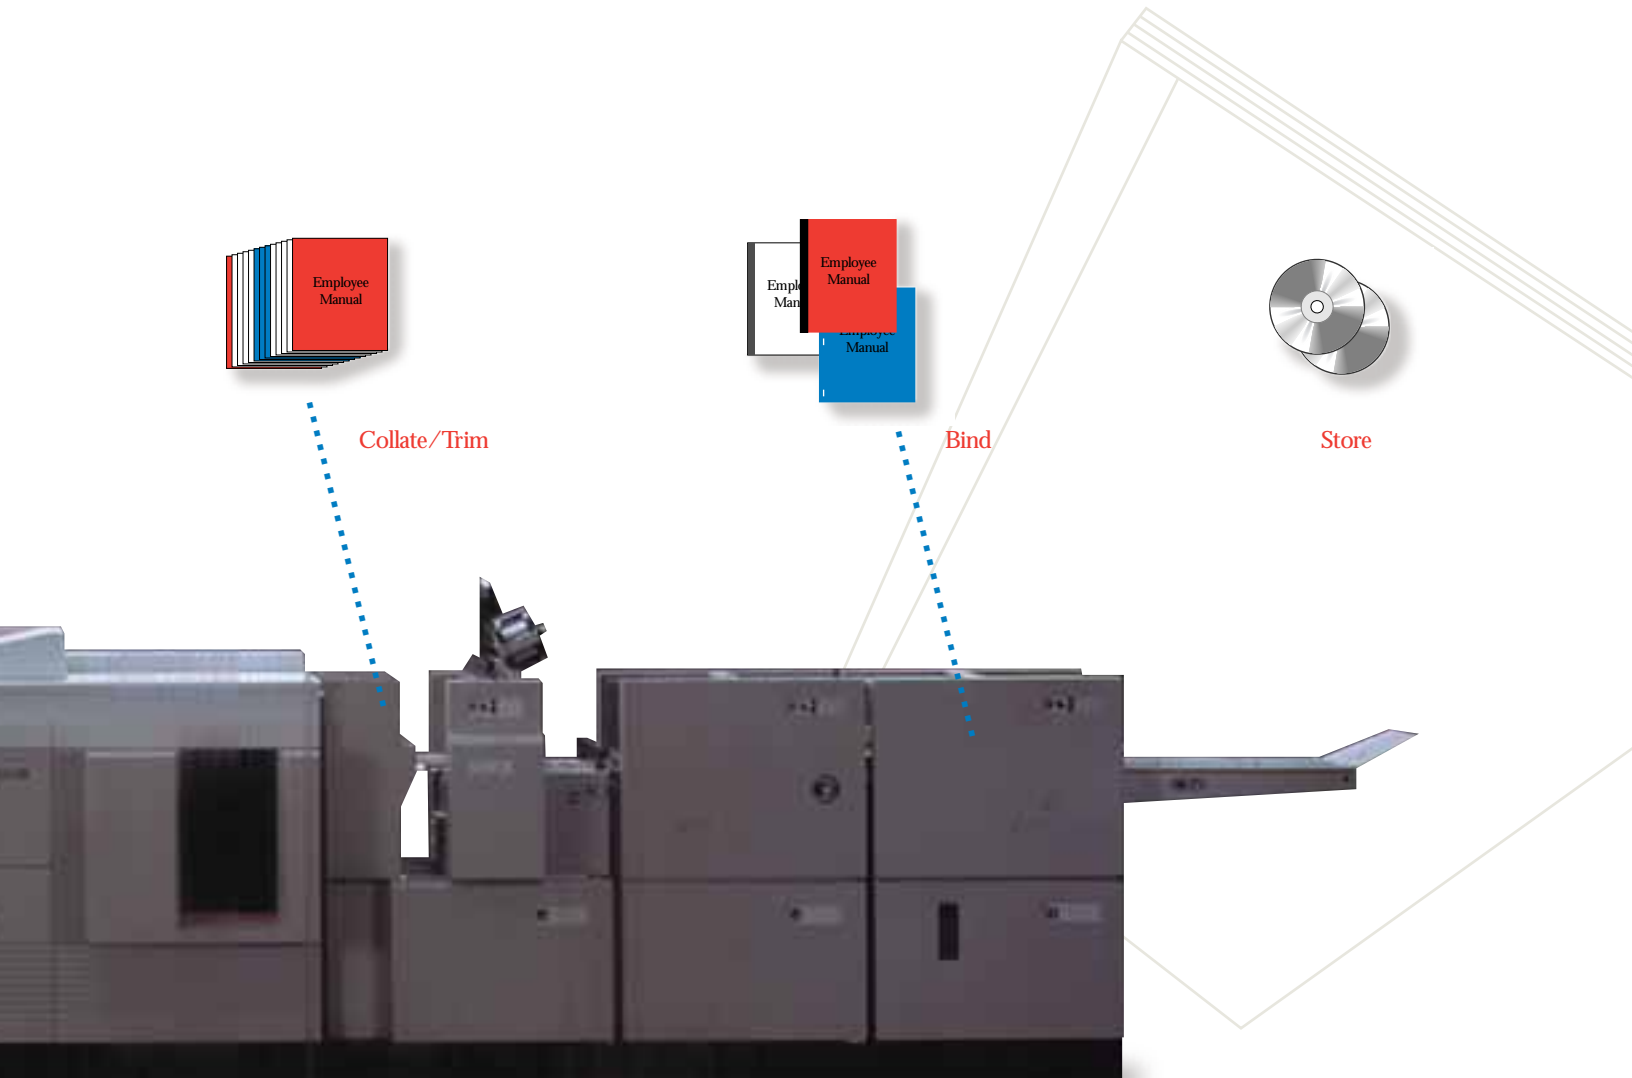

Introducing DocuTech: Turns Electronic Files Into Finished Publications.

If you're ready to take desktop publishing to the next level, Merrick can make it happen.

Our new DocuTech can help you cut time and labor on newsletters, manuals, corporate reports, information booklets, or any black-and-white multi-page print production.

With Merrick and DocuTech, it's one step—pre-press, printing and binding. Just load it up and let it happen.

- Teams digital processing, black-and-white printing and finishing into a single system.
- Scans up to 23 pages of hard copy per minute.
- Scans, programs, prints and finishes all at the same time.
- Prints at laser speed with twice the DPI.
- Offers support for all Adobe and most HP, TrueType and Interpress type fonts.
- Reads 3 1/2" and 5 1/4" floppies, SyQuest, Bernoulli, CD-ROM, Optical or DAT tape...multiple ways to transfer data.

- Accepts MS-DOS, Windows, Windows NT, Macintosh, SunOS Platforms in Adobe PostScript, HP PCL and Interpress format.
- Modem your files to 24-hour bulletin board service.
- Masters can be changed – pages resequenced – images enhanced or revised – text revamped – at any time.
- Signals the end of overruns, prints *exactly* the number you need.
- Saves space because there's no film or film storage.

- Paper weight can range from 16-lb bond to 110-lb Index. You can also utilize multiple paper stocks and add inserts to your document.
- Finishes with thermal bind, saddle stitch, side stitch, folded or loose leaf.
- Outputs up to 135 pages per minute.
